### **Amended Option on Fenton Deposit**

**Val-d'Or, September 16, 2014** - Cartier Resources Inc. (TSX-V: ECR) ("Cartier") and SOQUEM INC. announce they have amended the option agreement on Fenton property located 47 km southwest of Chapais, Quebec. The modification consists of three changes:

- the [new property](#) consists of 15 claims and covers the [Fenton gold deposit](#) and its immediate surroundings;
- prolongs the current agreement<sup>(1)</sup> terms to March 2018;
- continue share-based payments to SOQUEM INC. of 50,000 common shares of Cartier at each anniversary.

"This new agreement gives us an additional three years to explore the depth and lateral extensions of the [Fenton gold deposit](#)," said Philippe Cloutier, President and CEO, adding "this is an innovative way to maintain an option on a gold historical resource during difficult market times."

Cartier and Soquem are presently developing a new drill program to test the potential of the deposits extensions.

<sup>(1)</sup>SOQUEM INC.–Cartier Partnership

Cartier has an option to earn a 50% undivided interest in the Fenton project by incurring exploration expenditures aggregating \$1,500,000 by March 21, 2018. Cartier has a firm commitment to invest \$500,000 in exploration work over the first year; which has been completed, and to issue 50,000 common shares to SOQUEM INC., on each anniversary of the agreement. SOQUEM INC. will be the operator. After Cartier earns its 50% undivided interest, SOQUEM INC. and Cartier will form a joint venture.
