

**All other assay results are pending**

**Quality Assurance / Quality Control**  
 The scientific and technical information has been reviewed and approved by Mr. Gaëtan Lavallière, P. Geo, Ph. D. and Vice-President for Cartier Resources. Mr. Lavallière is a qualified person as defined by National Instrument 43-101.

All the historical drill hole results are estimated at true thickness.  
 All the current drill hole results are measured along the core axis.

Project Manager & Geomatician : Ronan Déroff, P. Geo., M. Sc.
