Interim Condensed Notes to Financial Statements

Nine-month periods ended September 30, 2015 and 2014 (Unaudited)

Incorporation and Nature of Operations

Cartier Resources Inc. (the "Company"), initially incorporated under Part 1 A of the Québec Companies Act on July 17, 2006, has been governed by the Business Corporations Act (Quebec) since February 14, 2011. The Company's head office is located at 1740, chemin Sullivan, Suite 1000, Val-d'Or, Québec. Its activities primaily include the acquisition and exploration of mining properties. The Company has not yet determined whether its properties contain economically recoverable ore reserves. The recoverability of the amounts shown for mining properties is dependent upon the existence of economic ore reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties, and upon future profitable production or proceeds from the disposal of properties.

1. Basis of preparation and going concern

These interim condensed financial statements were prepared on a going concern basis, using historical costs method, except for «Other short-term financial assets» which are measured at fair value.

The Company's ability to continue as a going concern depends on its ability to realize its assets and to obtain additional financing. While it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. The Company has not yet determined whether its properties contain economically recoverable ore reserves. The application of International Financial Reporting Standards « IFRS » on a going concern basis may be inappropriate, since there is a doubt as to the appropriateness of the going concern assumption.

These interim condensed financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported amounts of revenues and expenses and the classification of statement of financial position items if the going concern assumption was deemed inappropriate, and these adjustments could be material. Management did not take these adjustments into account as it believes in the appropriateness of the going concern assumption.

These interim condensed financial statements have been prepared by the Company's management in accordance with ("IFRS"), and in accordance with IAS 34, "Interim Financial Reporting". They do not include all the information required in annual financial statements in accordance with IFRS. These interim condensed financial statements should be read in conjunction with the audited financial statements for the year ended December 31, 2014.

The preparation of interim condensed financial statements in accordance with IAS 34 requires the use of certain critical judgments and accounting estimates. It also requires management to exercise judgment when applying the Company's accounting policies.

On November 17, 2015, the Company's Board of Directors approved these interim condensed financial statements for the period ended September 30, 2015.

2. Changes to accounting policies

The interim financial statements have been prepared in accordance with the accounting policies adopted in the Company's last annual financial statements for the year ended December 31, 2014, except for the following new accounts policies effective for annual periods beginning on or after January 1, 2015. The accounting policies have been applied consistently throughout the Company for the purposes of preparing these interim financial statements.

Interim Condensed Notes to Financial Statements

Nine-month periods ended September 30, 2015 and 2014 (Unaudited)

2. Changes to accounting policies (continued)

IFRS 9 Financial Instruments

In July 2014, the IASB published IFRS 9 which replaces IAS 39 *Financial Instruments: Recognition and Measurement* (IAS 39). IFRS 9 introduces improvements which include a logical model for classification and measurement of financial assets, a single, forward-looking "expected loss" impairment model and substantially-reformed approach to hedge accounting. IFRS 9 is effective for annual reporting periods beginning on or after January 1, 2018. Earlier application is permitted. The Company has yet to assess the impact of this new standard on its interim financial statements.

3. Cash and cash equivalents and cash reserved for exploration

As at September 30, 2015 and December 31, 2014, the cash and the cash equivalents and the cash reserved for exploration include banker's acceptances, bonds, an account bearing a high interest rate and an account without interest are as follows:

12. Financial Instruments

Objectives and policies in managing financial risks

The Company is exposed to various financial risks resulting from its operations and financing activities. The directors and officers of the Company manage those risks.

The Company does not enter into speculative derivative financial instruments.

Interim Condensed Notes to Financial Statements

Nine-month periods ended September 30, 2015 and 2014 (Unaudited)

12. Financial Instruments (continued)

Financial risks

The following paragraphs describe the main financial risks to which the Company is exposed and its risk management policies.

Interest risk

The bonds bear interest at a fixed rate and consequently expose the Company to the risk of fair value fluctuation related to changes in interest rates.

The other financial assets and liabilities of the Company do not represent interest risk because they do not bear interest.

The Company does not use financial derivatives to reduce its exposure to interest risk.

As at September 30, 2015, the Company's exposure to interest rate risk is summarized

Cash and cash equivalents : Variable and fixed interest rate Cash reserved for exploration : Variable and fixed interest rate

Receivables: Non-interest bearing Accounts payables and accrued liabilities: Non-interest bearing

Interest rate sensitivity

As at September 30, 2015, the Company only received interest on bankers' acceptances and on account bearing interests.

Interest rate movements may affect the fair value of the investments in fixed interest financial assets.

The possible effects on fair value that could arise as a result of changes in interest rates are taken into account when making investment decisions.

Liquidity risks

The Company establishes cash forecasts to ensure it has the necessary funds to fulfill its obligations. Obtaining additional funds makes it possible for the Company to continue its operations, and while it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

Liquidity risk analysis

Liquidity risk management serves to maintain a sufficient amount of cash and to ensure that the Company has financing sources such as private and public investments for a sufficient amount.

Over the year, the Company has financed its exploration expense commitments, its working capital requirements and acquisitions through private and flow-through financings.

12. Financial Instruments (continued)

Liquidity risk analysis (continued)

The following table summarizes the Company's financial liabilities as at:

		Septe	mber 30, 2015
	,	Between one	
	Less than	and three	More than
	one year	years	three years
	\$	\$	\$
Accounts payables and accrued liabilities	100,254	-	-

	114,338		_

Where the counterparty has a choice of when an amount is paid, the liability has been included on the earliest date on which payment can be required.

Credit risk analysis

The Company's exposure to credit risk is limited to the carrying value of its financial assets at the date of presentation of the financial information as disclose below:

	September 30,	December 31,	
	2015	2014	
	\$	\$	
Cash and cash equivalents	917,833	303,355

Receivables (other than goods and services tax receivable)	11,394	11,394	
Carrying amounts	969,915	1,405,812	

The Company has no trade receivables. Its receivables comprised mainly of tax credits, mining taxes and sale taxes receivable consequently, the exposure to credit risk for the Company's receivables is considered immaterial. No impairment loss has been recognized in the periods presented.

The Company's management considers that all of the above financial assets that are not impaired or past due for each of the reporting dates are of good credit quality.

None of the Company's financial assets are secured by collateral or other credit enhancements.

The credit risk for cash and cash equivalents and cash reserved for exploration is considered negligible, since the counterparties are reputable financial institutions with high quality external credit ratings.

Interim Condensed Notes to Financial Statements

Nine-month periods ended September 30, 2015 and 2014 (Unaudited)

12. Financial Instruments (continued)

Fair value of financial instruments

The Company discloses the fair value hierarchy by which the financial instruments are evaluated and assigned to the following levels. Level 1 features a valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 includes inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 includes inputs for the asset or liability that are not based on observable market data. Marketable securities are classified under Level 1 (note 13).

The fair value of cash and cash equivalents, cash reserved for exploration and receivables approximates their carrying value as these items will be realized in the short term.

13. Financial assets and liabilities

14. Contingencies and commitments

The Company is partially financed through the issuance of flow-through shares. However, there is no guarantee that its expenses will qualify as Canadian exploration expenses, even if the Company is committed to taking all the necessary measures in this regard. Refusal of certain expenses by the tax authorities would have a negative tax impact for investors.

Moreover, tax rules regarding flow-through placements set deadlines for carrying out the exploration work no later than the first of the following dates:

- Two years following the flow-through placements;
- One year after the Company has renounced the tax deductions relating to the exploration work.

Commitments to carry out exploration work that are not met are subject to a combined tax rate of 30% (Canada and Quebec).

Total remuneration	390,787	481,873

During the periods ended in 2015 and 2014, key management personnel did not exercised any share options granted through the share-based payment plans.

16. Capital disclosures

The Company's objectives in managing its capital are to ensure sufficient liquidity to pursue its organic growth strategy and undertake selective acquisitions. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares and acquire or sell mining properties to improve its financial performance and flexibility.

The Company's capital is composed of shareholders' equity. The Company's primary uses of capital are to finance exploration expenditures and acquire properties. To effectively manage the Company's capital requirements, the Company has in place a rigorous planning and budgeting process to help determine the funds required to ensure the Company has appropriate liquidity to meet its operating and growth objectives.

The Company expects that its current capital resources and its ability to obtain additional financing will support further exploration and development of its mineral properties.
