Interim Condensed Notes to Financial Statements

Three and six-month periods ended June 30, 2013 and 2012 (Unaudited)

Incorporation and Nature of Operations

Cartier Resources Inc. (the "Company"), initially incorporated under Part 1 A of the Québec Companies Act on July 17, 2006, has been governed by the Business Corporations Act (Quebec) since February 14, 2011. The Company's head office is located at 1740, chemin Sullivan, Suite 1000, Val-d'Or, Québec. Its activities include mainly the acquisition and exploration of mining properties. The Company has not yet determined whether its properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for mining properties is dependent upon the existence of economically recoverable ore reserves, the ability of the Company to obtain necessary financing to complete the exploration and development of its properties, and upon future profitable production or proceeds from the disposal of properties.

1. Basis of preparation and going concern

These interim condensed financial statements were prepared on a going concern basis, using historical costs method, except for «Other short-term financial assets» which are measured at fair value through profit or loss.

The Company's ability to continue as a going concern depends on its ability to realize its assets and to obtain additional financing. While it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. The Company has not yet determined whether its properties contain ore reserves that are economically recoverable. The application of International Financial Reporting Standards « IFRS » on a going concern basis may be inappropriate, since there is a doubt as to the appropriateness of the going concern assumption.

These interim condensed financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported amounts of revenues and expenses and the classification of statement of financial position items if the going concern assumption was deemed inappropriate, and these adjustments could be material. Management did not take these adjustments into account as it believes in the validity of the going concern assumption.

These interim condensed financial statements have been prepared by the Company's management in accordance with ("IFRS"), and in accordance with IAS 34 "Interim Financial Reporting". They do not include all the information required in annual financial statements in accordance with IFRS. These interim condensed financial statements should be read in conjunction with the audited financial statements for the year ended December 31, 2012.

The preparation of interim condensed financial statements in accordance with IAS 34 requires the use of certain critical judgments and accounting estimates. It also requires management to exercise judgment when applying the Company's accounting policies.

On August 16, 2013, the Company's Board of Directors approved these interim condensed financial statements for the period ended June 30, 2013.

2. Changes to accounting policies

The interim financial statements have been prepared in accordance with the accounting policies adopted in the Company's last annual financial statements for the year ended December 31, 2012, except for the following new accounts policies effective for annual periods beginning on or after January 1st, 2013. The accounting policies have been applied consistently throughout the Company for the purposes of preparation of these interim financial statements.

IFRS 11 Joint Arrangements (IFRS 11)

IFRS 11 supersedes IAS 31 Interests in Join Ventures (IAS 31). It aligns more closely the accounting by the investors with their rights and obligations relating to the joint arragement. In addition, IAS 31's option of using proportionate consolidation for joint ventures has been eliminated. IFRS 11 now requires the use of the equity accounting method, which is currently used for investments in associates. Management's analysis is that IFRS 11 did not have a material impact on the interim financial statements.

IFRS 12 Disclosure of Interests in Other Entities (IFRS 12)

IFRS 12 integrates and makes consistent the disclosure requirements for various types of investments, including unconsolidated structured entities. It introduces new disclosure requirements about the risks to which an entity is exposed from its involvement with structured entities. Management's analysis is that IFRS 12 did not have a material impact on the interim financial statements.

5.

Commodity taxes and others

Interim Condensed Notes to Financial Statements

Three and six-month periods ended June 30, 2013 and 2012 (Unaudited)

2. Changes to accounting policies (continued)

IFRS 13 Fair Value Measurement (IFRS 13)

IFRS 13 clarifies the definition of fair value and provides related guidance and enhanced disclosures about fair value measurements. It does not affect which items are required to be fair-valued. Management's analysis is that IFRS 13 did not have a material impact on the interim financial statements.

3. Cash and cash equivalents and cash reserved for exploration

As at June 30, 2013 and December 31, 2012, the cash and the cash equivalents include banker's acceptances, an account bearing interests and an account without interest as detailed below:

7. Leases

The future minimum operating lease payments are as follows:

		Minimum lease payments due					
	Within 1 year	1 to 5 years	After 5 years	Total			
	\$	\$	\$	\$			
June 30, 2013	44,587	427,056	175,884	647,527			
December 31, 2012	89,175	427,056	175,884	692,115			

The Company rents its offices under a lease expiring in March 2021. The lease covering a Company's vehicle expires in October 2017. The Company also leases equipment under an agreement expiring in March 2016.

Lease payments recognized as an expense during the reporting period amount to \$44,587 (\$89,175 as at December 31, 2012). This amount consists of minimum lease payments. The Company's lease agreements contain renewal options.

8. Exploration assets and deferred exploration costs

	Number	Amount
Balance, beginning of period	57,904,145	\$ 14,966,939
Shares issued and paid Acquisition of property (a) (b)	50,000	8,000
Balance, end of period	57,954,145	14,974,939

- (a) On March 2, 2012, the Company issued 250,000 common shares persuing the option agreement enabling it to earn a 51% undivided interest in the Benoist project. The Company must also issue 100,000 common shares before the first anniversary of the closing date and another 150,000 common shares before the second anniversary of the closing date and incur exploration expenditures aggregating \$3,000,000 by March 1st, 2015. Both parties amended the agreement and the Company paid \$18,000 to Murgor Resources inc. («Murgor») instead of issuing 100 000 common shares before the first anniversary. In addition, before the third anniversary, the Company will have a second option to earn an additional 49% undivided interest in the property by issuing 500,000 common shares to Murgor before the fourth anniversary of the closing date and incurring additional exploration expenditures aggregating \$3,000,000 by March 1st, 2018. During the option period, the Company will act as operator. Murgor will retain a 1% NSR. The project is also subject to a 2.5% NSR payable to previous vendors of which a 1.5% NSR can be bought back by the Company for a consideration of \$1,500,000.
- (b) On March 19, 2012, the Company issued 50,000 common shares persuing the option agreement enabling it to acquire a 50% undivided interest in the Fenton project. The Company must also incur exploration expenditures aggregating \$1,500,000 by March 19, 2015. In addition, the Company had a firm commitment to invest \$500,000 in exploration work over the first year following the signature of the agreement, which was completed over the period, and the Company issued on the first anniversary of the agreement 50,000 common shares to SOQUEM INC. The Company must also issue 50,000 common shares to SOQUEM at the second anniversary following the signature of the agreement. SOQUEM INC. will be the operator. After the Company earns its undivided interest of 50%, SOQUEM INC. and the Company will form a joint venture.

Stock Option Plan

The Company has a stock option plan that has been approved by the shareholders. The maximum number of common shares which may be reserved under the plan is limited to 10% of the number of common shares issued and outstanding (on a non-diluted basis). The options granted to any option cannot exceed 5% of the issued and outstanding common shares. The options are vested over a period of 12 months and are exercisable over a maximum of five years.

Interim Condensed Notes to Financial Statements

Three and six-month periods ended June 30, 2013 and 2012 (Unaudited)

12. Financial Instruments

Objectives and policies in managing financial risks

The Company is exposed to various financial risks resulting from its operations and financing activities. The directors and officers of the Company manage those risks.

The Company does not enter into speculative derivative financial instruments.

Financial risks

The main financial risks to which the Company is exposed and the risk management policies are as follows:

Interest risk

The bonds bear interest at a fixed rate and consequently expose the Company to the risk of fair value fluctuation related to changes in interest rates.

The other financial assets and liabilities of the Company do not represent interest risk because they do not bear interest.

The Company does not use financial derivatives to reduce its exposure to interest risk.

As at June 30, 2013, the Company's exposure to interest rate risk is summarized as follows:

Cash and cash equivalents
Cash reserved for exploration
Receivables
Accounts payables and accrued liabilities

Variable and fixed interest rate Variable and fixed interest rate Non-interest bearing Non-interest bearing

Interest rate sensitivity

At June 30, 2013, the Company only received interest on bankers' acceptances.

Interest rate movements may affect the fair value of the investments in fixed interest financial assets.

The possible effects on fair value that could arise as a result of changes in interest rates are taken into account when making investment decisions.

Liquidity risks

Liquidity risk management serves to maintain a sufficient amount of cash and to ensure that the Company has at its disposal sufficient sources of financing such as private placements. The Company establishes cash forecasts to ensure it has the necessary funds to fulfill its obligations. Obtaining additional funds makes it possible for the Company to continue its operations, and while it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

Credit risk

Cash and cash equivalents are held or issued by financial institutions with a superior-quality credit rating. Hence, the Company considers that the risk of non-performance of such instruments is negligible.

(an exploration company)

Interim Condensed Notes to Financial Statements

Three and six-month periods ended June 30, 2013 and 2012 (Unaudited)

12. Financial Instruments (continued)

Credit risk analysis

The Company's exposure to credit risk is limited to the accounting value of its financial assets at the date of presentation of the financial information as disclose below:

	e 30, 2013 \$	December 31, 2012 \$
Cash and cash equivalents 1,798	,743	1,241,272
Cash reserved for exploration 29	,669	873,129
Banker's acceptances 50°	,855	1,429,025
Receivables (other than goods and services tax receivable) 178	3,621	260,707
Carrying amounts 2,508	,888	3,804,133

The Company has no trade receivables. The receivables comprised mainly of tax credits, mining taxes and sale taxes receivable consequently, the exposure to credit risk for the Company's receivables is considered immaterial. No impairment loss has been recognized in the periods presented.

The Company's management considers that all the above financial assets that are not impaired or past due for each of the reporting dates under review are of good credit quality.

None of the Company's financial assets are secured by collateral or other credit enhancements.

The credit risk for cash and cash equivalents, cash reserved for exploration and banker's acceptances and bonds is considered negligible, since the counterparties are reputable financial institutions with high quality external credit ratings.

Fair value of financial instruments

The Company discloses the fair value hierarchy by which the financial instruments are evaluated and have the following levels. Level 1 features a valuation based on quoted prices (unadjusted) in active market for identical assets or liabilities. Level 2 includes inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, and Level 3 includes inputs for the asset or liability that are not based on observable market data. Marketable securities are classified under Level 1 (note 13).

The fair value of cash and cash equivalents, cash reserved for exploration and receivables approximates their carrying value as these items will be realized in the short term.

(an exploration company)

14. Contingencies and commitments

The Company is partially financed through the issuance of flow-through shares. However, there is no guarantee that its expenses will qualify as Canadian exploration expenses, even if the Company is committed to taking all the necessary measures in this regard. Refusal of certain expenses by the tax authorities would have a negative tax impact for investors.

Moreover, tax rules regarding flow-through placements set deadlines for carrying out the exploration work no later than the first of the following dates:

- Two years following the flow-through placements;
- One year after the Company has renounced the tax deductions relating to the exploration work.

Commitments to carry out exploration work that are not met are subject to a combined tax rate of 30% (Canada and Quebec).

During the year ended December 31, 2012, the Company received \$1,250,400 following flow-through placements for which the Company had renounced tax deductions after December 31, 2012.

The Company has renounced tax deductions of \$1,250,400 as at February 28, 2013 and management is required to fulfil its commitments before the stipulated deadline of December 31, 2013. As at June 30, 2013, the balance was \$29,669 and has been presented as "Cash reserved for exploration".

(an exploration company)

Interim Condensed Notes to Financial Statements

Three and six-month periods ended June 30, 2013 and 2012 (Unaudited)

15. Transactions with key management personnel

The Company's key management personnel are members of the Board of Directors, as well as the president, the vice-president and the chief financial officer. Key management personnel remuneration includes the following expenses:

	June 30, 2013	June 30, 2012
	\$	\$
Short-term employee benefits		
Salaries including bonuses and benefits	192,380	283,738
Social security costs	20,254	27,063
Total short-term employee benefits	212,634	310,801
Share-based payments-employees	3,511	26,579
Total remuneration	216,145	337,380

During the six-month period ended June 30, 2013, key management personnel did not exercise any share options granted through the share-based payment plans. During the six-month period ended June 30, 2012, key management personnel did not exercise any share options granted through the share-based payment plans.

16. Capital disclosures

The Company's objectives in managing its capital are to ensure sufficient liquidity to pursue its organic growth strategy and undertake selective acquisitions. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares and acquire or sell mining properties to improve its financial performance and flexibility.

The Company's capital is composed of shareholders' equity. The Company's primary uses of capital are to finance exploration expenditures and acquire properties. To effectively manage the Company's capital requirements, the Company has in place a rigorous planning and budgeting process to help determine the funds required to ensure the Company has appropriate liquidity to meet its operating and growth objectives.

The Company expects its current capital resources and its ability to obtain additional financing will support further exploration and development of its mineral properties.

The Company is not subject, in regards of external rules, to any requirements regarding its capital, except if the Company completes a flow-through financing for which the cash must be reserved for exploration. As at June 30, 2013, the Company's cash reserved for exploration was \$29,669 (\$873,129 as at December 31, 2012).

As at June 30, 2013, the shareholders' equity was \$ 10,149,516 (\$10,613,196 as at December 31, 2012).

17. Related party transactions	June 30,	June 30,
	2013	2012
	\$	\$
Consultants	-	1,000

During the reporting period the Company has no related party transactions. During the 2012 reporting period, the Company was provided consultation services from a company pursuant to which a director of the Company is a minority shareholder for \$1,000. This transaction occurred within the normal course of business and was measured at the exchange value, which is the amount of consideration established and agreed to by the related parties. As at June 30, 2012, no amount was included in the accounts payable and accrued liabilities.

(an exploration company)

Interim Condensed Notes to Financial Statements

Three and six-month periods ended June 30, 2013 and 2012 (Unaudited)

18. Liquidity risk analysis

Liquidity risk management serves to maintain a sufficient amount of cash and to ensure that the Company has financing sources such as private and public investments for a sufficient amount.

Over the period, the Company has financed its exploration expense commitments, its working capital requirements and acquisitions through private and flow-through financings.

The Company's liabilities are summarized below:

	June 30, 2013	December 31, 2012
	\$	\$
Accounts payables and accrued liabilities Liability related to flow-through shares	119,651 9,536	211,530 238,440
	129,187	449,970

Where the counterparty has a choice of when an amount is paid, the liability has been included on the earliest date on which payment can be required.

19. Subsequent events

Acquisition of Chimo-Nova

On May 16, 2013, Blue Note Mining Inc. ("Blue Note") announced that in connection with a notice of intention to file a proposal under the Bankruptcy and Insolvency Act (Canada), PricewaterhouseCoopers Inc. ("PWC") has been appointed as trustee to assist Blue Note and X-Ore Resources Inc. ("X-Ore") in their restructuring efforts. In this context, PWC prepared an invitation to submit offers.

On July 9, 2013, the Company announced the execution of an agreement for the acquisition of the Chimo and Nova properties, both held by X-Ore, a wholly-owned subsidiary of Blue Note. Cartier's offer submitted to PWC for the purchase of the Chimo and Nova properties was accepted. The agreed purchase price is \$261,000.

The Chimo and Nova properties are contiguous and located 50 km east of the prolific Val-d'Or gold mining camp, and cover the Larder Lake–Cadillac Break. The Chimo property comprises two mining leases. It is subject to a 1% NSR royalty payable to IAMGOLD-Québec Management Inc. ("IAMGOLD") and a 2% NSR, subject to certain conditions, payable to Louvem Mines Inc. (a wholly-owned subsidiary of Richmont Mines Inc.), as well as 2% of the gross revenue payable to Chimo Gold Mines Inc. The Nova property comprises 38 claims. It is subject to a 1% NSR royalty payable to IAMGOLD.

On July 12, 2013, the Superior Court approved the transaction.

Acquisition of Benoist

On May 23, 2013, the Company announced the execution of a purchase agreement with Murgor Resources Inc. ("Murgor") to acquire a 100% interest in the Benoist property consisting of 98 mining claims. The Benoist property is the host of the Pusticamica gold deposit and is located 65 km northeast of the town of Lebel-sur-Quévillon in the province of Quebec.

On July 29, 2013, the Company acquired a 100% interest in the Benoist property for a cash payment of \$250,000 and the issuance of 650,000 common shares which will be subject to a hold period of four months and one day under the applicable securities regulations.
