Notes to the Interim Condensed Consolidated Financial Statements

Three-month periods ended March 31, 2023 and 2022 (Unaudited) (In Canadian \$)

Incorporation and Nature of Operations

Cartier Resources Inc. (the "Company"), initially incorporated under Part 1 A of the Québec *Companies Act* on July 17, 2006, has been governed by the *Business Corporations Act* (Quebec) since February 14, 2011. The head office is at 1740, chemin Sullivan, Suite 1000, Val-d'Or, Quebec. Its activities primaily include the acquisition and exploration of mining properties in Canada.

The Company has not yet determined whether these properties contain economically recoverable ore reserves. Although, at the current stage of the exploration work, the Company is taking all industry standard measures to ensure that the mining property titles in which it has a financial interest are in good standing, these measures in place do not guarantee property titles to the Company. Property titles may be subject to prior unregistered agreements or non-compliance with regulatory requirements.

The recoverability of amounts reported for mining properties and deferred exploration expenses is dependent on the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development and future profitable production, or the proceeds of the transfer of such property. At the date of the financial statements, the carrying value of mining properties and deferred exploration expenses represents, in management's opinion, the best estimate of their net recoverable value. This value could however be reduced in the future.

On May 18, 2023, the Company's Board of Directors approved these unaudited interim condensed consolidated financial statements.

1. Acquisition

On April 7, 2022, the Company completed the acquisition of all of the issued and outstanding shares of Chalice Gold Mines (Quebec) Inc. ("Chalice Quebec"), a wholly-owned subsidiary of O3 Mining, which owns a 100% interest in the East Cadillac property contiguous with the Company's Chimo Mine property in the Val-d'Or Gold Camp, Quebec, Canada.

The acquisition of Chalice Quebec was completed in consideration for the issuance of 46,273,265 shares of the Company representing 17.5% of the common shares outstanding at the closing of the transaction, including the fair value on the date of acquisition is \$6,709,623. Issuance costs of \$23,426 were applied against the share capital.

On April 21, 2022 Chalice Gold Québec inc. changed its name to Chimex Resources inc.

Management has concluded that Chalice Quebec does not meet the definition of a business because the assets and activities acquired do not include a substantial process and there are no outputs, therefore the transaction was accounted for as an asset acquisition. The fair value of the shares issued as consideration was determined based on the market price of the shares.

The following table details the fair value of the total consideration transferred and the fair value of identifiable assets acquired and identifiable liabilities assumed at the date of acquisition of East Cadillac's property:

(an exploration company)

Notes to the Interim Condensed Consolidated Financial Statements

Three-month periods ended March 31, 2023 and 2022 (Unaudited) (In Canadian \$)

1. ACQUISITION (continued)

Fair value of consideration for acquisition

Equity consideration Transaction fees	6,709,623 180,126
Total value of consideration paid	6,889,749
Amount recognized as Mining Property	6,889,749

2. Basis of preparation and going concern

Cartier Resources Inc. and its subidiary Chimex Resources Inc. (the "Company") are exploration companies with activities in Canada.

These unaudited interim condensed consolidated financial statements have been prepared by the Company's management in accordance with ("IFRS"), and in accordance with IAS 34, "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB"). They do not include all the information required in annual financial statements in accordance with IFRS. These unaudited interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2022.

These unaudited interim condensed consolidated financial statements were prepared on a going concern basis, using historical costs method, except for "Other short-term financial assets" and "Share-based payments" which are measured at fair value.

The unaudited interim condensed consolidated financial statements have been prepared on a going concern basis, meaning that the Company will be able to realized its assets and discharge its commitments and liabilities in the normal course of operations. The Company's ability to continue as a going concern depends on its ability to realize its assets and to obtain additional financing. While it has been successful in raising financing to date, there can be no assurance it will be able to do so in the future. The Company believes it has sufficient liquidity to meet its obligations for the next 12 months. The Company has not yet determined whether its properties contain economically recoverable ore reserves and has not yet generated revenues from operations. The recoverability of the amounts shown for mining properties is dependent upon the existence of economic ore reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties, and future profitable production or proceeds from the disposal of properties. The above conditions indicate the existence of material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

These unaudited interim condensed consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported amounts of expenses and the classification of statement of financial position items if the going concern assumption was deemed inappropriate, and these adjustments could be material.

In preparing these unaudited interim condensed consolidated financial statements, the important judgments that were made by management in applying the Company's accounting policies and the main sources of estimation uncertainty were the same as those described in the audited consolidated financial statements for the year ended December 31, 2022.

(an exploration company)

Notes to the Interim Condensed Consolidated Financial Statements

Three-month periods ended March 31, 2023 and 2022 (Unaudited) (In Canadian \$)

3. New accounting method

As of the date of approval of these unaudited interim condensed consolidated financial statements, several new standards, amendments to existing standards and interpretations of existing standards had been issued by the IASB but were not yet effective. None of these standards or amendments to existing standards have been early adopted by the Company. Management expects that all relevant pronouncements will be adopted on the first fiscal year beginning on or after their effective date. New standards, amendments and interpretations not adopted for the current fiscal year have not been disclosed, since they should not have a material impact on the Company's Interim unaudited interim condensed consolidated financial statements.

4. Cash and cash equivalents

As at March 31, 2023 and 2022, cash and cash equivalents included an account bearing interest and an account without interest, as shown below:

	March 31, 2023		December 31, 2022		
	\$ I	nterest rate	\$	Interest rate	
Account bearing interest	3,856,183	4.05%-4.30%	6,729,014	0.60%-4.05%	
Account without interest	178,721	<u> </u>	244,501	-	
Total	4,034,904		6,973,515		

Cash and cash equivalents include \$821,312 (\$3,107,418 as at December 31, 2022) of funds to be incurred in eligible exploration expenses before December 31, 2023.

8. Mining assets and deferred exploration costs (continued)

(a) On May 12, 2021, an option agreement with Delta Resources Limited ("Delta") was signed, Delta has the option to acquire 100% of the interests of the Dollier property, located 30 km south of the municipality of Chibougamau. During the 4 years option period, Delta will have the exclusive right to acquire 100% interest by issuing the Company a total of 600,000 common shares of Delta and incurring expenses of at least \$1,000,000 on the Dollier property.

Upon signing of the agreement, the Company received \$10,000 in cash and 100,000 common shares of Delta with a fair value of \$42,000. All the shares issued to the Company, within the framework of the agreement, will be subject to a statutory holding period of 4 months. In the event Delta acquires a 100% interest in the Dollier property, the Company will retain a production royalty of 2% NSR on the Dollier property, of which 1% will be redeemable for an amount of \$2,000,000 and the other 1% will be redeemable, by Delta, for an amount of \$15,000,000.

On the first anniversary date, May 25, 2022, the Company received 100,000 common shares of Delta with a fair value of \$11,000. This amount was recorded in the Interim Condensed Consolidated Statements of loss and comprehensive loss as the sale of a property option.

The property Dollier was written off during the year ended December 31, 2015.

(b) On April 26, 2021, an option agreement with Earthwise (formerly Hawkmoon Resources Corporation) ("Earthwise") was signed, Hawkmoon has the option to acquire 100% of the interests of the Wilson property, located 15 km east of the municipality of Lebel-sur-Quévillon. During the 5 years option period, Earthwise will have the exclusive right to acquire 100% interest by paying the Company an amount totaling \$1,000,000 in cash, issuing to the Company a total of 5,000,000 common shares of Earthwise, incurring expenses of at least \$6,000,000 and completing at least 24,000 m of diamond drilling on the Wilson property.

Upon signing of the agreement, the Company received an amount of \$200,000 in cash and 700,000 common shares of Earthwise with a fair value of \$91,000. The amount of \$291,000 has been recorded as a reduction of the cost of the asset during the year ended December 31, 2021. All the shares issued to the Company, within the framework of the agreement, will be subject to a statutory holding period of 4 months. In the event Earthwise earns a 100% interest in the Wilson property, the Company will retain a production royalty of 2% NSR on the Wilson property, of which 1% will be redeemable for an amount of \$4,000,000.

On the first anniversary date, April 22, 2022, the Company received an amount totaling \$150,000 in cash and 700,000 common shares of Earthwise with a fair value of \$31,500. The amount of \$181,500 was recorded as a reduction of the cost of the asset during the year ended December 31, 2022.

11. Share capital (continued)

(a) Issuance of flow-through shares on October 28, 2022

On October 28, 2022, the Company completed a non-broker private placement. The Company issued 22,501,333 flow-through shares at a price of \$0.12 per share for gross proceeds of \$2,700,160. In connection with the offering, the agent received a cash fee equal to 3% of the gross proceeds of the offering for an amount of \$81,005 and shares equal to 3% of the gross proceeds of the offering, which represents 900,053 shares for a value of \$81,005. Share issue expenses totalling \$182,336 were applied against the share capital.

The Company also renounced the tax deduction related to the flow-through shares, which reduced share capital by \$562,533, The consideration is presented as a liability related to flow-through shares.

(b) Issuance of flow-through shares on October 18, 2022

On October 18, 2022, the Company completed a non-broker private placement. The Company issued 12,500,000 flow-through shares at a price of \$0.12 per share for gross proceeds of \$1,500,000. In connection with the offering, the agent received a cash fee equal to 3% of the gross proceeds of the offering for an amount of \$45,000 and shares equal to 3% of the gross proceeds of the offering, which represents 500,000 shares for a value of \$45,000. Share issue expenses totalling \$104,515 were applied against the share capital.

The Company also renounced the tax deduction related to the flow-through shares, which reduced share capital by \$312,500. The consideration is presented as a liability related to flow-through shares.

(c) On May 20, 2022, the Company completed a private placement amounting to \$1,820,000. The Company issued a total of 14,000,000 units (the "units") at a price of \$0.13 per unit, each unit consisting of one common share with a value of \$0.10 per share and one half-warrant with a value of \$0.03, each entitling its holder to subscribe for one common share at a price of \$0.16 for a period of 36 months following the closing date. The warrants were valued at \$443,800 using the Black-Scholes model. Issuance costs of \$26,327 were applied against share capital.

Share Option Plan

The Company has a share option plan that has been approved by the shareholders. The maximum number of common shares which may be reserved under the plan is limited to 10% of the number of common shares issued and outstanding (on a non-diluted basis). The options granted to any optionnee cannot exceed 5% of the issued and outstanding common shares. The options are vested over a period of 12 months and are exercisable over a maximum of five years.

15. Financial Instruments

Objectives and policies for managing financial risks

The Company is exposed to various financial risks resulting from its operations and investing activities. The directors and officers of the Company manage these risks.

The Company does not enter into speculative derivative financial instruments.

Financial risks

The following paragraphs describe the main financial risks the Company is exposed to and its risk management policies.

Interest risk

Interest rate risk is the risk that a financial instrument's fair value or future cash flows will fluctuate due to changes in market interest rates. Cash equivalents bear interest at a fixed rate. In relation to these, the Company is exposed to a limited extent to a change in fair value because they are redeemable at any time, or the Company plans to use them in the short term for its operations. The Company's exposure to cash flow risk related to the interest rate of its loan is limited since it does not bear interest.

Liquidity risks

The Company establishes cash forecasts to ensure it has the necessary funds to fulfill its obligations. Obtaining additional funds makes it possible for the Company to continue its operations. While it has been successful in doing so in the past, there is no assurance that it will be able to do so in the future.

Liquidity risk analysis

Liquidity risk management serves to maintain a sufficient amount of cash and to ensure that the Company has financing sources such as private and public investments for a sufficient amount.

Over the fiscal year, the Company has financed its exploration expense commitments, working capital requirements and acquisitions through private and flow-through financings.

All financial liabilities mature in less than 12 months.

Sensitivity to credit risk

The Company's exposure to credit risk is limited to the carrying value of its financial assets at the date of presentation of the financial information as disclose below:

December 31, 2022	March 31, 2023
\$	\$
6,973,515	4,034,904

The Company's financial assets are not secured by collateral or other credit enhancements.

(an exploration company)

Notes to the Interim Condensed Consolidated Financial Statements

Three-month periods ended March 31, 2023 and 2022 (Unaudited)

(In Canadian \$)

15. Financial Instruments (continued)

Sensitivity to credit risk (continued)

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable financial institutions with high quality external credit ratings.

Fair value of financial instruments

The Company discloses the fair value hierarchy by which the financial instruments are evaluated and assigned to the following levels. Level 1 features a valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 includes inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 includes inputs for the asset or liability that are not based on observable market data. Marketable securities of a quoted mining exploration company are classified under Level 1.

The carrying amount of cash and cash equivalents, accounts payables and accrued liabilities and loan approximate fair value based on the close date.

16. Contingencies and commitments

The Company is partially financed through the issuance of flow-through shares. However, there is no guarantee that its expenses will qualify as Canadian exploration expenses, even if the Company is committed to taking all the necessary measures in this regard. Refusal of certain expenses by the tax authorities would have a negative tax impact for investors. Moreover, tax rules regarding flow-through placements set deadlines for carrying out the exploration work no later than the first of the following dates:

- One year following the flow-through placements; or
- one year after the Company has renounced the tax deductions relating to the exploration work.

If the Company does not incur eligible exploration expenditures it will be required to indemnify the holders of such shares against all taxes and other expenses incurred as a result of the Company not incurring the required exploration expenses.

During the three month period ended March 31, 2023, the Company did not receive any amount from flow-through financings. From flow-through financings received in 2022, an amount of \$2,286,106 was used for deferred exploration costs as at March 31, 2023.

During the year ended December 31, 2022, the Company received an amount of \$4,200,160 from flow-through financings. From flow-through financings received in 2022, an amount of \$1,092,742 was used for deferred exploration costs as at December 31, 2022.

The Company renounced tax deductions related to flow-through financings and a liability related to flow-through shares issued in 2022, totaling \$875,033 was recorded as liability related to flow-through shares at the time of issuance. Management was required to incur eligible exploration expenditures before December 31, 2023. As at March 31, 2023, the flow-through share liability was \$172,792 (\$647,378 as of December 31, 2022).

(In Canadian \$)

17. Transactions with key management personnel

The Company's key management personnel are members of the Board of Directors, the president, the vice-president and chief financial officer. The remuneration of key management personnel includes the following expenses:

	Three-month periods ended	
	March 31,	March 31,
	2023	2022
	\$	\$
Short-term employee benefits		
Salaries and fees including bonuses and benefits	199,908	187,293
Social security costs and contributions to the		
pension plan	31,901	30,766
Total short-term employee benefits	231,809	218,059
Share-based payments-employees	58,371	23,036
Total remuneration	290,180	241,095

During the three month periods ended March 31, 2023 and 2022, no key management personnel exercised share options granted through the share-based payment plans.

18. Capital disclosures

The Company's objectives in managing its capital are to ensure sufficient liquidity to pursue its organic growth strategy and undertake selective acquisitions. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares and acquire or sell mining properties to improve its financial performance and flexibility.

The Company's capital is composed of shareholders' equity. The Company's primary uses of capital are to finance exploration expenditures and acquire properties. To effectively manage the Company's capital requirements, the Company has in place a rigorous planning and budgeting process to help determine the funds required to ensure the Company has appropriate liquidity to meet its operating and growth objectives.

The Company expects that its current capital resources and its ability to obtain additional financing will support further exploration and development of its mineral properties for the next 12 months.

The Company is not subject, with regards to external rules, to any requirements regarding its capital, unless the Company completes a flow-through financing for which the cash must be reserved for exploration. As of March 31 2023, the Company has \$821,312 cash reserved for exploration (\$3,107,418 as of December 31, 2022).

19. Subsequent Event

a) Issuance of common shares on May 9, 2023

On May 20, 2022, the Company completed a private placement amounting to \$204,000. The Company issued a total of 1,457,443 common shares at a price of \$0.14 each. Issuance costs of \$8,533 were applied against share capital.

b) On May 4, 2023, pursuant to the terms of the Option Agreement, Earthwise issued to Cartier 1,600,000 common shares at a price of \$0.08 per share, in satisfaction of the scheduled share issuance required to be made by Earthwise under the terms of the Option Agreement. The 1,600,000 shares will be subject to a contractual release period, as follows: (a) July 22, 2023: 25%; (b) October 22, 2023: 25%; (c) January 22, 2024: 25%; and (d) April 22, 2024: 25%.

Following the transaction, the Company beneficially owns 1,740,000 common shares, representing approximately 15.54% of the issued and outstanding Common Shares of Earthwise on a non-diluted basis.

c) Issuance of flow-through shares on May 1, 2023

On May 1, 2023, the Company completed a non-broker private placement. The Company issued 5,140,000 flow-through shares at a price of \$0.155 per share for gross proceeds of \$796,070 and 4,545,455 flow-through shares at a price of \$0.165 per share for gross proceeds of \$750,000, totalling an amount in cash of \$1,546,070. In connection with the offering, the agent received a cash fee equal to 3% of the gross proceeds for an amount of \$46,401 of the offering and shares equal to 3% of the gross proceeds of the offering, which represents 331,435 shares for a value of \$46,401. Share issue expenses totalling \$107,806 were applied against the share capital.

The Company also renounced the tax deduction related to the flow-through shares, which reduced share capital by \$346,680. The consideration is presented as a liability related to flow-through shares.
