

New Opportunity for the Wilson Project

Val-d'Or, May 28, 2024 – Cartier Resources Inc. (TSXV: ECR, FSE: 6CA) (the “**Company**”) announces the termination, effective May 23, 2024, of the option agreement ([Original Agreement, April 22nd 2021](#) and [Amended Agreement, April 20th 2023](#)) pertaining to its 100% owned Wilson Property, situated 15 km east of Lebel-sur-Quévillon, due to the third anniversary earn-in commitments not being met by the optionor, which was notified accordingly.

The project has three key exploration success components:

- Location
 - Mining camp jurisdiction of Quebec, Canada
 - Infrastructures and qualified workers
- High grade gold mineralization
 - [Trench and drill hole with multiple high grade gold intersection](#)
 - High grade gold Toussaint Deposit open below 200 m
- Blue-sky
 - Numerous high grade gold discoveries with expansion potential
 - Compilation in progress and planning next steps

A review and interpretation of all historical exploration data, as well as recent drilling will be undertaken with a focus on the areas with [high-grade gold potential](#) on which to focus the next phases of work.

« *The areas with known gold mineralization of the project offer the most obvious exploration upside potential and starting point for discovering additional mineralized zones* » commented Philippe Cloutier, President and CEO.
